WCBD—Zion (345) 7 annual ensemble.

## COPP CIRCUIT CONVERTED

HOOK-UP OF COPP CONVERTED INTO NON-REGENERATIVE RECEIVER.

BY ISRAEL KLEIN  
NEA Service Radio Editor

It is a simple operation to convert the Copp circuit to a non-regenerative hook-up. One is to tune the chief objection to a Copp set comes from others than these actually using the receiver—those who are annoyed by interferences by improperly tuned sets.

To please these neighbors there are two expedients. One is to tune the set carefully so that the oscillations will cause the set to radiate. The other is the fool-proof method of converting the set to a non-regenerative circuit.

The set as originally hooked up causes oscillations of the tube to radiate directly back into the aerial. To stop this the grid lead is taken off the aerial circuit altogether and the filament isn't grounded.

**Simple Change.**  
Instead of the primary of the variocoupler, whether tuned or untuned, is grounded while the secondary or rotor is hooked between grid and filament, instead of between plate and phones. The plate in this case, is led directly to the phones.

The parts for this circuit are almost exactly those of the original Copp receiver, and the coils are of

the same construction. The primary consists of 70 turns of No. 16 DCC wire, with a tap off every 10th turn. It is wound on four-inch tubing six inches long. The secondary is wound on a 3 1/2-inch rotor, with 17 turns of the same wire on each side.

**Same Parts.**  
Other parts include:  
C1, a 43-plate variable condenser, .001 mfd.  
C2, a grid leak and condenser, .00025 mfd.  
One 6-ohm rheostat.  
One tube socket.  
One 1/4-inch rod and dial, for the rotor.  
Six binding posts.

Seven taps and switch lever.  
Bus wire for connections, 8-inch by 12-inch panel, 6-inch by 12-inch wood base.

Instead of direct phone connections, a double circuit jack may be fitted into the circuit, for use of a two-stage amplifier. If this is desired, the two outside terminals of the jack should be connected to the plate and the 16 1/2 volt, or 22 1/2 volt terminal of the B battery, and the two inner terminals go to the first transformer, one to the plate terminal and the other to the positive Copp receiver, and the coils are of

of the Record," covering the last session of Congress, should "be published not later than Tuesday, June 24, 1924."

The Record went to press on the morning of June 24; Pat Harrison's speech wasn't delivered until afternoon. Naturally, it "missed" the edition.

In addition to the Republican keynote speech, the post-session issues of the Record also carried, under other "leaves to extend," the text of the G. O. P. platform, and a detailed exposition of Republican achievements. Both of which, thereby, become postage free for campaign purposes. And all of which become so many trumps for the Republicans.

### TRUCK FARMERS TO MEET

RICHMOND, Va., July 16.—Arrangements are being made and a date has been tentatively set for a meeting of eastern farmers at the Virginia truck experiment station at Norfolk. Plans were at first considered for the holding of this meeting on July 15.

Dr. T. C. Johnson, director of the station, states that the date for this meeting has been tentatively set for August 27. An appropriate program of speakers will be arranged when the day is definitely decided upon. It is expected that this meeting will be attended by a large number of farmers from the trucking sections of Princess Anne, Norfolk, Nansemond, Warwick, Elizabeth City and James City counties, since the experiment station is the trucking center of the State and has done much to advance the trucking industry.

No woman is as bad as she looks when you tell her age.

**Cuticura**  
will help you to have beautiful Hair and a lovely Complexion

Use Cuticura Soap daily to keep your skin clear, Cuticura Ointment to relieve and prevent irritations. Keep the scalp healthy by shampoos with Cuticura Soap, assisted by touches of Cuticura Ointment when needed.

## In New York

NEW YORK, July 17.—One of the clerks at the hotel in which I live is an Englishman, small of stature and unusually active.

Although he has been in the hotel business many years he does everything as though he were an efficient beginner, trying to earn a raise in salary.

He is by far the most accommodating hotel clerk I have found between New York and San Francisco.

Yesterday I learned, after knowing him two years, that he is worth a fortune, made in well-chosen business transactions.

Each year he spends his vacation in Europe, spending much of his time in London, the town of his birth.

He remains in the hotel as clerk because it gives him an opportunity to meet so many people "some of whom are interesting," he adds.

He could buy and sell the majority of guests to whom he caters.

NEW YORK is a peculiar place.

In the office building in which I work one can't ride on the passenger elevator unless he has on a collar. In other words he must be dressed fit to kill before he is tendered transportation.

On a warm afternoon, while sweating over a typewriter, I ran out of tobacco. I dashed for the elevator—fully dressed except that I had taken off my collar and tucked my neckband in.

"Take the rear elevator," commanded the dusky operator, who has been getting all my spare cigars for months. "Delivery boys and help ride on the employees lift. You can't ride on this car unless you are fully clad."

Back in Lafayette, Ind., my home town, you could put your bathing suit on in the office and ride on the elevator to and from your swimming pool and nobody appeared distressed.

"Before you make your will," advertises a New York bank in the Fifth Avenue buses, "be sure to consult us."

A few years ago—in the pioneering days of automotive transportation—that sign would have stricken terror in the minds of nervous people. Just as it might if it were posted in the cabin of a passenger airplane today.

But the buses are safe.

## Dry Fork

DRY FORK, Va., July 16.—Farmers' conditions are very pleasing at present. There was not altogether as much damage to the wheat by the wet weather as was supposed, yet there was enough to make a great deal of bad flour. There has been much of it threshed out during the past week and the yield is invariably reported excellent. If the farmers only have a few more days of fair weather it will all be safely in the barn.

The tobacco is looking considerably well and all the people who had not laid by their crops before the wet spell are now to be seen putting the dirt to it. The corn, cotton and other crops are looking fine and if the season holds good until maturity the yield will be very plentiful.

**Co-op Meeting.**  
The co-ops of the Dry Fork local will hold a meeting Friday evening, July 18, at eight o'clock. W. E. Gardner will speak and they are expecting a large crowd. The meeting will be held in the Dry Fork school building. There is plenty of room in the school and plenty of parking ground. Everybody is cordially invited.

**Sunday School Report.**  
The Oakland Sunday school report for last Sunday morning was very pleasing, excusing the absence of three teachers and the secretary of the men's Bible class. Aurilian Elliott, a teacher of the men's Bible class, and Frank Crane, secretary of that class, were on an important trip to Lynchburg. Mrs. W. W. Worley, teacher of class four, was ill and Mrs. Elerson Shelton, teacher of class five, was unable to be there for some cause. But other members filled their places and the work was carried on the same as usual. All classes had considerably good attendance and there were several visitors. The school is still growing more interesting and new scholars and visitors will always find a hearty welcome. Service at 10 a. m.

Rev. Mr. Gum, pastor of the Methodist church at Chatham, also made a very interesting talk on Sunday school work.

**Sunday Evening Service.**  
Rev. J. T. Owen conducted a very fine service at Oakland Sunday evening. The crowd was hardly as large as usual, but the song service was fine and after that Rev. Owen delivered a very interesting sermon, which everybody seemed to have enjoyed a great deal. We have service every Sunday evening at eight o'clock and wish to give everybody a cordial invitation.

**Big Camp Meeting.**  
The big camp meeting at the Dry Fork Holiness church began last night and will continue for ten days or more. There will be very fine singing, preaching and testimonies from the members and all people in reach are cordially invited.

**Reports from the Sick.**  
Mrs. Luther Oakes is getting along equally as well as could be expected, considering the circumstances. Mrs. George Elliott is now able to be rolled about her home in a wheel chair.

Miss Carrie Davis is out again. Lucile Collins is getting along considerably well with whooping-cough.

Mrs. W. W. Worley is hardly improving as fast as could be expected.

**Social Happenings.**  
Eugene C. Evans, of Reidsville, has been the guest of his mother, Mrs. Ella Evans, since Saturday night. She has now gone on a trip to night, but has now gone on a trip to night. Mrs. W. J. Crane, of Lynchburg, for the past two weeks has decided to stay two more weeks.

Miss Lura Oakes spent Saturday night and Sunday with Miss Opal McDowell.

Misses Oneda Crane, Janie Giles and Earla Elliott and Messrs. Frank Crane and Aurilian Elliott motored to Lynchburg Sunday and report quite a nice trip.

Miss Pansie and Mrs. N. T. Oakes have been visiting in Gretna.

Mrs. J. C. Taylor will leave for Waynesboro tomorrow where she will spend a week with her daughter, Mrs. Witt.

**LEGION CONVENTION FUND HAS NOW PASSED \$4,400**

The canvass under the auspices of the Chamber of Commerce to raise \$5,000 for the State convention of the American Legion entertainment fund was continued yesterday, with the total reported at the close of the day \$4,400. The canvassers will meet today and the team captains will confer with the manager of the campaign for a summing up and statements of the precise results. Many of those who were counted on for contributions are absent from the city, and these will be sent a reminder of the canvass and its aims and purposes.

Confidence is expressed that the remainder of the five thousand will be made up during the next few days.

The regular meeting of the traffic committee of the chamber was held at 5 p. m. yesterday. A. B. Crowell presiding. The important matter of the operation of the new traffic bureau was discussed informally, but in the absence of the traffic secretary, George K. Nelms, who is all no other action was taken by the meeting. Mr. Nelms is reported improving, however, and it is hoped that he will in a few days be able to take the reins and organize and press the work of the bureau.

**BANK OFFICIAL ARRESTED**

COLUMBUS, O., July 16.—Charged with embezzling \$22,476.96 in funds of the Industrial Endowment Fund Company, a warrant was issued today for Louis W. Josephson, Columbus attorney, and former vice president of the company.

## 25 PROPER AGE FOR WOMEN TO WED, SHE SAYS

**Declares Marriage Is Competitive and Preparation For It Should Be Made**

BY A. H. FREDERICK  
(NEA Service Writer)

BERKELEY, Cal., July 16.—Marriage is competitive.

Adequate preparation is best guarantee of success for one entering the vocation.

Miss Mary Messer, University of California, instructor, is authority for the statements. She is the first to establish a college course in marriage and divorce.

"Requisites of a generation ago today are inadequate for successful wifehood," declares Miss Messer. "Times have changed, developed immeasurably, and a woman contemplating housewifery must prepare herself under conditions of the new era."

"The present is an age of competition, and of business partnerships. Aspects of this have remodeled the marital state. Remorse is likely to be the lot of the girl who fails to adjust herself to advanced conditions."

**Wait, Her Advice.**  
A period intervening between finish of college and marriage should be utilized as a postgrad course in experience, she believes.

"At least three years in the business world," she says. "This gives the girl ability to support herself, an opportunity to meet (and thus learn) men, and a general broadening which will reflect in her conversation and habits."

"During this period it is inadvisable for the girl to live at home. Also she should concentrate upon her work as though she intended never to quit self-support."

"It is necessary that the girl bring about this experience period as our laws do not protect against too early marriage. Some states allow immature girls of 14 and 15 to assume these mature obligations. Whither such marriages lead generally may be surmised."

"Even 21, I should say, is premature, eliminating as it does the girl's opportunity for business experience."

"Twenty-five would seem a very good age, with 30 reaching a point where adaptation becomes increasingly difficult."

**Three Periods.**  
Experience with the opposite sex—but wholesome and decorous—leads toward fitting the girl for domesticity, Miss Messer declares. For this she learns to estimate correctly the men who seek her hand in marriage, and to choose intelligently, and also gains better understanding for life with her future husband.

Lives of married women generally fall into three distinct periods, explains Miss Messer. The first, prior to arrival of children, the second, when motherhood cares are paramount, and the last after the children are sufficiently grown to obviate necessity of diligent watchfulness, and the woman—hard worker for a number of years—finds herself with insufficient occupation.

"In this period the woman should return to outside vocation," Miss Messer believes. "Maybe she will find vent in political, philanthropic or regular office work."

"At no period should a woman be idle, her responsibility to contribute labor to the world is as great as is that of men."

**NUMBER FFATALITIES FROM RIOTING IN INDIA**

(By The Associated Press.)  
DELHI, British India, July 16.—Six persons were killed and more than one hundred wounded in rioting yesterday between Mohammedans and Hindus. The disturbances were caused by what is described as the aggressive attitude of the Mohammedans who persisted in carrying in cows for sacrifice through the prohibited area where the Hindus live.

The Mohammedans are declared to have entered the Hindu streets, breaking open and setting fire to the houses and desecrating idols. The military was called out with armored cars and forced to fire on the mob. There were no casualties from this fire. The casualties occurred in the street disturbances. Order was restored after four hours. Cavalry reinforced the police pickets.

**DANVILLE ALL-STARS AT HALIFAX PARK TODAY**

The Danville All-Star baseball team including some of the best playing talent in this city, and the Halifax team of the Tri-County league, made up of local players augmented by college players, will play a game this afternoon, beginning at 4 o'clock, at the park near Halifax, the county seat. Among the players on the Halifax team is Catcher Luther, a Danville young man who is with the University of Virginia team during the collegiate season. Others about to go to the professional Class C standard are included.

With the Danville leaguers away for the rest of the week, many followers of the sport will doubtless drive over to Halifax this afternoon to see the game.

**DAILY PUZZLE**

A farmer owned an odd-shaped piece of ground, shown in the diagram. He decided to cut it into lots, but wished to keep half of it for himself. He also wanted his portion to be of a regular shape, with its opposite sides parallel to each other. He knew the length of each side of the field, but did not know its area. What was the simplest way for him to lay off his part?

Yesterday's answer:  
The auto license tag, "ten, ten, ten," was number 101,010, from the State of Tennessee. Licensees of that State of professed with the abbreviation "Ten," which accounts for the first "ten."

**Sunburnt?**

HOW thousands of women, by the simple method of an eminent physician, have avoided unnecessary suffering through many months and up to the moment of birth. Told also what to do before and after baby comes, postnatal care of mother and baby, etc., etc. "Mother's Friend" is sold in all drug stores everywhere. It is applied externally, is safe, free from narcotics, permits easier natural adjustment of muscles and nerves during pregnancy and childbirth. Start using it today. Mrs. E. B. Kerger, Clayton, Minn., says: "It pulled me through." Send for book today to Bradfield Regulator Co., 24-70, Atlanta, Ga. "Mother's Friend" is sold at all good drug stores—everywhere.

**IF THE PREACHER GETS MIXED UP—**

## IF THE PREACHER GETS MIXED UP—

ABOVE—VERNA (LEFT) AND VERNIA SCOVILLE. BELOW—LOREN (LEFT) AND LAWRENCE MCKIE.

OMAHA, July 17.—The minister will have to be sure he is wearing his spectacles when he marries Loren McKie and Verna Scoville.

For without his "cheaters" he is liable to see double and make Verna the wife of Lawrence McKie, and Loren the husband of Verna Scoville.

Loren and Lawrence are twins. So are Verna and Verna.

Loren and Verna are engaged. So are Lawrence and Verna.

The two couples are going to have a double wedding. It will be a fitting climax, they think, to a double courtship.

**Gretna**

GRETNA, Va., July 16.—Tobacco has improved considerably for the past two weeks and many excellent fields of the weed are to be seen in some sections of the county, while some fields have suffered from too much rain.

Thrashing machines are now busy in all parts of the county and the wheat crop will soon be threshed. The yield is reported to be very good.

Mr. and Mrs. W. E. Moon took charge of Virginia Hotel here Tuesday, July 15.

Messrs. Munford Mustain and Walter Pickrel have occupied Mr. Moon's residence.

W. E. Ramsey, county treasurer, moved his family to Chatham the first of this week.

Mr. Hays Dalton, of Ohio, is in Gretna in interest of their property in and near Gretna which is to be sold at auction on July 26.

Frank T. Mayhew, Jr., age six months, died at the home of his parents at an early hour Sunday morning and was buried that afternoon.

A very large crowd attended the burial services.

Mr. and Mrs. C. C. Hunt attended the burial of Mrs. Hunt's aunt, Mrs. V. C. Scardiff in Lynchburg Sunday.

Talmage Creasy, of Mount Airy, Va., is in Jefferson Hospital, Roanoke, for treatment.

A large crowd of young men went fishing at Owen's mill pond Tuesday evening. They caught right many fish.

About fourteen American Telephone men are stopping at VV Virginia Hotel. They are stringing extra wires on their line.

Miss Gray Noell has returned to Washington, having spent several days with her parents in Gretna.

Miss Ann Noell, of Washington, is expected to arrive in Gretna tonight for a ten days' visit to her parents, Mr. and Mrs. W. C. Noell.

E. A. Giles is guest of his daughter at his old home near Chatham.

I. M. Clingenpeel, of Danville, and Martinsville was in Gretna the first of this week.

Mr. and Mrs. Shirville Bailey and son, of Richmond, are guests of his sister, Mrs. G. M. Hines.

Mr. and Mrs. J. J. Motley and his mother, Mrs. Holt, left Tuesday for a visit to Mrs. Russell Foster in Russell, Ky.

Mrs. W. E. Ramsey was entertained Monday afternoon by the ladies of The Missionary Society at the home of Mrs. R. M. Shelton, president of the society. A two-course luncheon was served after which the guests participated in a lively concert. At the conclusion a silver tea service was presented Mrs. Ramsey by Mrs. D. E. Webb as a token of appreciation of her co-operation and leadership in the W. M. C. work. There were 23 members present.

**CHARGES, WIRE TAPPING**

(By The Associated Press.)  
NEW YORK, July 16.—Charges that private wires leading from his office on Fifth Avenue to the offices of several brokers have been tapped lately were made by Jesse L. Livermore, famous plunger of Wall Street, in an interview appearing today in which he denied rumors that he had suffered heavy losses recently in his speculations.

**MARRIED TWELVE YEARS BEFORE BABY CAME**

Gladly Recommends Lydia E. Pinkham's Vegetable Compound

Louisville, Nebraska.—"I was married twelve years before my boy was born. I had a lot of female troubles and had been treated by a physician for them but they continued much the same. Then I read your advertisement in the newspapers and thought I would give Lydia E. Pinkham's Vegetable Compound a good trial, for if it had helped others, why not me? I have taken 36 bottles of the medicine and am never without it in the house. My baby boy is three years old now and I sure am happy since I got relief from my troubles. When any one has troubles like mine, or any ways like mine, I am always glad to recommend the Vegetable Compound so that they will get the right kind of medicine." — Mrs. JOE NOVAK, Box 662, Louisville, Neb.

In a recent country-wide canvass of purchasers of Lydia E. Pinkham's Vegetable Compound, 98 out of every 100 report they were benefited by its use. For sale by druggists everywhere.

The two sets of twins met three years ago when Loren and Lawrence, then on the DeWitt (Neb.) high school basketball team, played at Peru, Neb., where Verna and Verna were attending school.

At the banquet given the visiting team, partners were drawn. And the twins drew twins.

"Mother, look what we found—twins who match just as much as we do," shouted the girls when the McKie twins escorted them home.

Strange as it may seem, each of the boys generally knew which he was courting. And each of the girls

generally knew which of the McKies she had a date with.

True, Loren once sat down beside Verna in a street car when he meant to sit beside Verna.

And once it took the girls nearly a whole breakfast hour before they discovered who was who after the boys had swapped ties.

But—  
"Well, if the preacher gets us mixed," declares Loren, "he'll have to do it right over again."

Loren and Lawrence live in DeWitt. They are 22. Verna and Verna, 21, reside here in Omaha.

Woman hits a dry agent on the head with a brick in a Jersey City Shucks, a brick bat ain't equal to the average dry agent's head.

Popular songs could be worse. No song is as bad as its parodies.

Maple syrup is being made from prune juice instead of brown sugar.

**MARRIED TWELVE YEARS BEFORE BABY CAME**

Gladly Recommends Lydia E. Pinkham's Vegetable Compound

Louisville, Nebraska.—"I was married twelve years before my boy was born. I had a lot of female troubles and had been treated by a physician for them but they continued much the same. Then I read your advertisement in the newspapers and thought I would give Lydia E. Pinkham's Vegetable Compound a good trial, for if it had helped others, why not me? I have taken 36 bottles of the medicine and am never without it in the house. My baby boy is three years old now and I sure am happy since I got relief from my troubles. When any one has troubles like mine, or any ways like mine, I am always glad to recommend the Vegetable Compound so that they will get the right kind of medicine." — Mrs. JOE NOVAK, Box 662, Louisville, Neb.

In a recent country-wide canvass of purchasers of Lydia E. Pinkham's Vegetable Compound, 98 out of every 100 report they were benefited by its use. For sale by druggists everywhere.

**Child-birth**

HOW thousands of women, by the simple method of an eminent physician, have avoided unnecessary suffering through many months and up to the moment of birth. Told also what to do before and after baby comes, postnatal care of mother and baby, etc., etc. "Mother's Friend" is sold in all drug stores everywhere. It is applied externally, is safe, free from narcotics, permits easier natural adjustment of muscles and nerves during pregnancy and childbirth. Start using it today. Mrs. E. B. Kerger, Clayton, Minn., says: "It pulled me through." Send for book today to Bradfield Regulator Co., 24-70, Atlanta, Ga. "Mother's Friend" is sold at all good drug stores—everywhere.

**IF THE PREACHER GETS MIXED UP—**

OMAHA, July 17.—The minister will have to be sure he is wearing his spectacles when he marries Loren McKie and Verna Scoville.

For without his "cheaters" he is liable to see double and make Verna the wife of Lawrence McKie, and Loren the husband of Verna Scoville.

Loren and Lawrence are twins. So are Verna and Verna.

Loren and Verna are engaged. So are Lawrence and Verna.

The two couples are going to have a double wedding. It will be a fitting climax, they think, to a double courtship.

**Gretna**

GRETNA, Va., July 16.—Tobacco has improved considerably for the past two weeks and many excellent fields of the weed are to be seen in some sections of the county, while some fields have suffered from too much rain.

Thrashing machines are now busy in all parts of the county and the wheat crop will soon be threshed. The yield is reported to be very good.

Mr. and Mrs. W. E. Moon took charge of Virginia Hotel here Tuesday, July 15.

Messrs. Munford Mustain and Walter Pickrel have occupied Mr. Moon's residence.

W. E. Ramsey, county treasurer, moved his family to Chatham the first of this week.

Mr. Hays Dalton, of Ohio, is in Gretna in interest of their property in and near Gretna which is to be sold at auction on July 26.

Frank T. Mayhew, Jr., age six months, died at the home of his parents at an early hour Sunday morning and was buried that afternoon.

A very large crowd attended the burial services.

The two sets of twins met three years ago when Loren and Lawrence, then on the DeWitt (Neb.) high school basketball team, played at Peru, Neb., where Verna and Verna were attending school.

At the banquet given the visiting team, partners were drawn. And the twins drew twins.

"Mother, look what we found—twins who match just as much as we do," shouted the girls when the McKie twins escorted them home.

Strange as it may seem, each of the boys generally knew which he was courting. And each of the girls

generally knew which of the McKies she had a date with.

True, Loren once sat down beside Verna in a street car when he meant to sit beside Verna.

And once it took the girls nearly a whole breakfast hour before they discovered who was who after the boys had swapped ties.

But—  
"Well, if the preacher gets us mixed," declares Loren, "he'll have to do it right over again."

Loren and Lawrence live in DeWitt. They are 22. Verna and Verna, 21, reside here in Omaha.

## T. J. BURTON'S FORD CAR STOLEN FROM MAIN STREET

The theft of another car was reported to the police about 11 o'clock last night. The missing car is of the Ford touring type, carried Virginia license No. 56,333 and belongs to T. J. Burton, of this city. Mr. Burton had parked his car for a short time on Main street near the Elks' home, and when he came out to enter the car, it was missing. The police department was notified of the theft and will broadcast the description and number of the car in efforts to apprehend the thief, if possible. It is thought probable that some youth or group of the went off with the car for a joy-ride or as a prank and deserted it somewhere on the suburbs.

**DRY FORK PERSONALS.**

Mrs. J. C. Keesee has returned to her home, Chapel Hill, Va., after a pleasant visit to her sister and brother-in-law, Mr. and Mrs. E. A. Smith, of Christiansburg.

Mrs. Keesee was accompanied home by Mrs. Smith who will visit friends in Danville and Greensboro, N. C., before she returns to Christiansburg.

**CO-OP NOTICE**

There will be a district meeting of Callands district T. G. C. A., at Callands High school Saturday, July 19 at 2 p. m. W. E. Gardner and other speakers are expected. All members are invited and non signers also will be welcome.

## WEALTH AND JUSTICE

The elaborate preparations that are being made for the first hearing in Leopold-Loeb murder trial which has been set for Monday of next week is food for thought. These two university students have been examined by the highest priced specialists that money could employ in the effort to defeat justice and to save their necks. Two branches of the criminal court are divided on the issue, one side of which will try to hang the murderers and the other side of which will make a desperate effort to save them. There is no question as to their guilt of the cold-blooded murder of Robert Franks, for they acknowledged this immediately after being apprehended. But their parents have hopes of proving that they are not mentally responsible for the crime that they have committed, and by the testimony of the experts they hope to have the boys sent to some private institution for the feeble-minded until such time as it will be safe to turn them loose on the public again. This case promises to be one of the longest drawn out and the hardest fought cases in the history of criminal procedure. Already a large room is being fitted up for the exclusive use of the telegraph companies and the newspaper representatives, who will be furnished bulletins at intervals setting forth the progress of the trial.

This crime has attracted world-wide attention both on account of the family connections of the youths who committed it, and also the unusual brutal manner in which they perpetrated the killing, also their seemingly disregard and unconcern as to the outcome of the case. Of course the world knows that the alienists were attracted to this case on account of the unlimited finances of their parents, which assures them an unlimited fee for their services. The worst phase of the situation is that one branch of the criminal courts which is sworn to protect the people from such outrages as this are lined up on the side of the defense in consideration of a few paltry dol-

All men may be equal in this country, but this instance proves that the man with unlimited wealth can get by with more anything and it now looks as if Leopold and Loeb will not even be put to the trouble of standing trial for the murder at all, for they now have a chance of being judged insane at the sanity hearing and sent to some private institution for the feeble-minded. The experts and the parents of the boys think that it would be a great injustice to hang the boys for a little crime like this. They are also afraid that it would be unwise to turn them loose for fear they would go out and kill somebody else.

If these boys had been the sons of parents of the rank and file of the country, they would already have been sentenced to the electric chair or to the hangman's noose, and no effort would have been made to prove that they were insane.

## LOOKS BEST AT A DISTANCE

England's first woman pilot, Mrs. Amelia Earhart, who made her first solo flight in 1921, the first use of a biplane in the world, then, they say, with their fingers.

Three centuries seem long ago, but in 1432 when some unknown English progressive brought the first fork over from France, "the good old days" were at their best.

Shakespeare had been dead 16 years. The Immortal Bard never used a fork. He never even saw one. It must have been a sight to watch people eat in those "good old days." Sewage systems were not in use in the "good old days." Refuse and dishwater were tossed into the gutters. Small wonder, plagues made people die like flies.

No one had running water for kitchen and bath. Carrying water in buckets a long distance or buying it from water carts—these are not attractive. People bathed as seldom as they had to invent high-power perfumes in order to get within speaking distance of each other without suspecting that a regiment of skunks was at large.

It was an age of discomforts and inconveniences. No labor-saving devices had been invented for homes. Women worked themselves into their graves prematurely.

Ignorance and medical superstition were frightful.

Morals several centuries ago were so lax that, by comparison, the jazz tendency of our generation is tame.

Crime was far more prevalent than now. No one could take a short stage-coach trip between towns safely without carrying a brace of pistols. Men were imprisoned for debt.

The "good old days" have been painted in romantic colors by fiction writers. That's why they seem attractive to people today. But if you could turn the clock back a few hundred years and live the life of those times, you would buy a return ticket promptly.

A fiction writer makes an old-time dungeon alluring, romantic, adventurous. Truth is, the dungeon was damp, cold, dark, infested with rats, reeking with lice. Guards were brutal. Justice was slow. Penalties were severe. Food was mainly mouldy old bread and water.

Romance? Good old days? It is a joke!

Fine from a distance. The good old days are now.

## THE PROPER SPEED

A Frenchman has established a new record in driving an automobile a mile in a little less than 26 seconds. That is at the rate of approximately 140 miles an hour though it would be impossible doubtless to retain such speed for any considerable length of time. While the record was made on a race track especially prepared for bursts of speed it shows what it is possible to do with such mechanical appliances. That would not be fast going for an airplane, but the conditions under which the two operate are quite in contrast. In this age speed and then more speed is the goal sought.

The real test of an automobile in practical use is not how fast can it be made to go, but how fast can it be driven with safety to the occupants and others on the road? Because the latter condition often is lost sight of is a reason why accidents occur. A car driven at high speed on a race track may imperil only the driver. On the road it may endanger others, also. The speed that takes one there and back without injury to the occupants of the car or menace to others is the only safe speed. But there are those who appear to believe that a record set on a race track is a thing properly to be challenged on the ordinary roadway. Such an idea is a mistake, but efforts to impress its erroneous-ness fail to be effective in many cases.

Things are so quiet over in Ireland now that if a small child were to think every day is Sunday.

A boy of 9 who drove off in a stolen auto in Louisville, Ky., was going in the wrong direction.

We don't know who lost the war, but Europe seems to be hunting for it.

Every time taxes take a jump they land on the consumer's neck.

With the Prince of Wales coming over to see the polo matches, the sport this year will attract greater interest than ever. Henry's loving hand has picked out a quiet old Dublin.

## THE REFERENCE

BY ALBERT APPLE

### DEAD

The death rate in cities is dropping faster than in the country. Uncle Sam's medical experts report.

A parallel fact is that the mortality rate among babies in New York City is lower than in any other city in the world.

Medical clinics, health education and sanitation in cities—these are making cities healthier than the most desert. Environment is not all. Most doctors and nurses look better for the life in the midst of disease. They simply take care of themselves.

### SHRINKING

Our country has 2500 fewer miles of railroad tracks than it had eight years ago. Railroad lines are being abandoned at a rapid rate. The number of miles of track is being cut at the rate of 100 miles a year.

The experts are a bit worried over the situation. They say that the tracks of some of the lines are being cut at a rapid rate. They say that the tracks of some of the lines are being cut at a rapid rate.

### RICHER

The average man of 1924 is richer than the average man of 1914. The average man of 1924 is richer than the average man of 1914. The average man of 1924 is richer than the average man of 1914.

### CANED

The average man of 1924 is richer than the average man of 1914. The average man of 1924 is richer than the average man of 1914. The average man of 1924 is richer than the average man of 1914.

# John Ansley Master Thief

## Arthur Somers Roche

Copyright 1924 NEA Service Inc.

### TO CATCH A THIEF IF—

## BEGIN HERE TODAY

John Ansley, a man of education and breeding, became a master crook by associating with other thieves. At Monte Carlo he learns that some clever thief has stolen a pearl necklace from the Baroness d'Este. Ansley overhears a man posing as a Russian prince offer the use of his hotel apartment to a young Englishman and his American bride, who have lost all their money at roulette. Later the prince brings hotel attendants to the apartment, claiming that the young Englishman has stolen his keys. The prince offers to free the Englishman if he is allowed to take the young bride on a motor trip. This brings on a fight. Later the prince dismisses the charge. Ansley wonders what is the nature of the prince's game.

## NOW GO ON WITH THE STORY

For I had no more desire to face a court, even in the role of witness, than I suspected the prince had to stand before a judge as complainant. And if I offered testimony in support of young Beresford, such a plot was so flagrant, so vicious, that not even the Monegasques, willing to wink their eyes at almost any offense, it scandal could thus be avoided. I knew this. The French, for all that is written about their morals, have a respect for wifehood. They would insist that the Prince be brought to trial for conspiracy, and I would have to testify in court.

So, while I had no intention of permitting Beresford to be deported, under circumstances that would forever stain his name, I waited. There might be only one way of skinning this particular polecat, but I suspected that there might be another.

And so, two hours later, when all the hotel save, probably, young Beresford, slept, I entered the prince's room.

Like the cat which walks alone, I walked silently. Also my movements were quiet. I picked the lock without difficulty, and passed through the door, through which I heard snoring, I tiptoed to the peered through and entered the bedroom. A night-dress was burning, and by its rays I could distinguish the screen behind which I had heard the prince tell Beresford, was a trunk. Now, that trunk had unquestionably contained a cash-box. But if it had contained anything else of value, would the prince have so rashly handed the Englishman his keys? If, for instance, the trunk had contained evidence which would indicate that its owner possessed unprincipally habits, would the prince have given up the keys?

This action of mine was based on the theory, now too logically acquired, that the prince was a criminal. Unless I should find proof in support of my theory, I was lost.

So, while I had no intention of permitting Beresford to be deported, under circumstances that would forever stain his name, I waited. There might be only one way of skinning this particular polecat, but I suspected that there might be another.

And so, two hours later, when all the hotel save, probably, young Beresford, slept, I entered the prince's room.

Like the cat which walks alone, I walked silently. Also my movements were quiet. I picked the lock without difficulty, and passed through the door, through which I heard snoring, I tiptoed to the peered through and entered the bedroom. But if it had contained anything else of value, would the prince have so rashly handed the Englishman his keys? If, for instance, the trunk had contained evidence which would indicate that its owner possessed unprincipally habits, would the prince have given up the keys?

This action of mine was based on the theory, now too logically acquired, that the prince was a criminal. Unless I should find proof in support of my theory, I was lost.

"MONSIEUR STATES IT IS HE WHO HAS BEEN ROBBERED."

my theory, my nocturnal visit would be not merely dangerous but useless. And it was silly to look for evidence in the trunk.

If the prince was what I thought him to be, proof in support of my belief would be found only upon his person. And it is a difficult thing to search a sleeping man without awakening him. Nevertheless I did it. And having done so, I had shouldered my way into his room, I had heard a tuft of his precious whiskers. Then I returned to my room.

Three minutes later I had broken two chairs, overturned a dressing-table, and smashed a pane of glass in the window. Also, I had shouldered my way into his room, I had heard a tuft of his precious whiskers. Then I returned to my room.

Three minutes later I had broken two chairs, overturned a dressing-table, and smashed a pane of glass in the window. Also, I had shouldered my way into his room, I had heard a tuft of his precious whiskers. Then I returned to my room.

## Scoop's Colyum

DRAKES BRANCH, July 17.—(Grapevine Wireless).—While attending the C. E. Convention in Richmond last week-end one of our fellow dit-tensons found parking space in Rueger's parking place. Sitting there on the starboard side of a large and handsome plank steak the world seemed rosy indeed. In the party was an attractive widow (all widows are that way yuh know), so a pleasant time was had by all. The lady was an expert conversationalist and our brother Elk, a good listener, so she thoroughly enjoyed the evening. She happened to mention a prominent clubman of the capital city by the name of Smith, a gentleman well known throughout the state, and our Danville delegate being a bit hazy on current history was unable to place him in the Hall of Fame. He felt, however, that some comment was expected so he ventured the opinion that the gentleman was probably a descendant of the famous Captain John Smith, who, with the aid of Pocahontas, bluffed Chief Powhatan in the little drama of long ago. The lady blushed slightly and with a merry twinkle in her eyes replied, "I trust not, Mr. Gadget, for you know Captain John Smith was a bachelor!" (Close up of our delegate busily engaged looking for his olive fork.) (Fade out!)

## NEVER CRITICISE PATCHED PANTS! THE GENT WHO OWNS 'EM MAY BE SUPPORTING A COUPLE OF AUTOS

Ed. Blackwell of Ruffin, had been entertaining a city relative, who desired to do a few chores on the farm by way of exercise.

First time you ever milked a cow, eh? asked Ed, one morning. Well, you do it 100 per cent. better than most city fellows do.

It seems to come natural, somehow, explained the city youth. I have had a good deal of practice with a fountain pen.

Shocking Society Item.

With one sweep of my strong arms I lifted her from her feet and crushed her to my breast. My nerveless hands encircled her siskin neck, and she nestled close against me, and felt the passionate throb of my heart in the excitement of the crucial moment.

Ah, Birdie! You are mine! I cried as I coolly placed her neck across the chopping block and signaled Maw to ter the axe fall.

A Friendly Tip.

"Is Mrs. Gabbie at home?" asked the caller.

"Ee good luck, ma'am, she's not," replied the Irish maid; but if y'r wise y'll leave yer card an' skeedaddit out o' here, for she's likely to be back most any minute now."—Boston Transcript.

Have you done your bit for the Legion meeting? Don't wait for a brace-and-bit!

Ralph Linville says a dub and his golf ball are soon parted.

Chauncey Depew, who is ninety.

# How To KEEP WELL

By Dr. W. A. Evans, Professor Chicago University.

(Questions pertinent to hygiene sanitation and prevention of diseases, if matters of general interest, will be answered in this column. Where space will not permit, or the subject is not suitable, letters will be personally answered to proper limitations, and where a stamped, addressed envelope is enclosed. Dr. Evans will not make diagnosis or prescribe for individual diseases. Requests for such services cannot be answered. Address Dr. Evans, care The Bee.)

## Diets For Constipation

The Pittsburgh Medical Society offers the following diets for use by persons who would cure themselves of constipation:

### MAY TAKE

SOLPS—Beef broth, mutton broth, veal broth, chicken broth, vegetable soup, tomato soup.

BREADS—Bran bread, bran muffins, entire wheat bread.

MEATS—Any kind except fresh pork.

FISH—Any kind.

EGGS—Poached, soft cooked, codded, or scrambled over water.

FATS—Cream, butter, olive oil, mineral oil.

CEREALS—Oat meal, cracked wheat, etc., and cereals containing bran. Add a little bran to all cooked cereals. Raisins or dates may also be added.

VEGETABLES—Lettuce, cucumbers, spinach, chubarr, asparagus, watercress, celery, tomatoes, Brussels sprouts, cabbage, cauliflower, egg plant, string beans, onions, carrots, peas, turnips, squash, beets.

SALADS—Made from any of the above fruits and vegetables.

DESSERTS—Apple tapioca pudding, apple snow, prune whip, apricot whip, fruit gelatin.

FRUITS—Oranges, lemons, grapefruit, apples, pears, peaches, apricots, cranberries, watermelon, cantaloupe, prunes, figs, dates, raisins, grapes; all berries except blackberries; marmalade, honey, preserves.

ALL FOODS rich in cellulose.

FRUITS—All fruits, especially fresh figs, dried figs, figs puree, prunes, prune puree, tomatoes, berries, and nuts.

CEREALS—Oatmeal brose (cooked only six to ten minutes), cracked wheat, whole wheat, cooked bran, bran much, graham bread, bran bread, bran muffins, shredded wheat, and wheat flakes.

VEGETABLES—Carrots, turnips, rutabagas, parsnips, beets, spinach, dandelion and other greens, string beans, green peas, eggplant, celery, lettuce, cucumbers, radishes, salads, cabbage, cauliflower, etc.

MISCELLANEOUS — Buttermilk, malted milk, malted nuts, malt sugar, malt honey, marmalades.

MEATS FOR CHRONIC CONSTIPATION.

BREAKFAST.

Orange, cantaloupe, stewed figs, orange juice, stewed dried apricots, or grapefruit.

Rolls with raisins and top of

## BEDTIME.

Dates, apple, orange, or lemonade.

From Her Own Experience.

An American woman writes: You recently told me one that "an operation for a cyst on the ovary is a dangerous operation."

I can fairly hear how upset the person in question must be. I suppose all operations are dangerous, yet as I was operated on for a cyst on the ovary three years ago (the ovary going, too, of course), and I am quite and perfectly well after only a few months, I do not believe that the operation can be as dangerous as you make it sound.

I am writing this as I feel sorry for the "throw down."

It is really too bad that a barber can't tell in advance whether or not a woman will look well with bobbed hair. But after all what difference would it make? He wouldn't dare express a positive opinion. Let a barber try telling a woman that she wouldn't look well with bobbed hair and he'd learn in a minute that his opinion didn't amount to much.

The most popular portion of a musical instrument in Washington just now, is the soft pedal.

If you vote in haste you are likely to repent at leisure, cautions Walter Pierce Tudor.

A young woman of our acquaintance defines home as: One small room containing a wardrobe trunk.

Will Hays is a home-lover, says one of those articles of encouragement writers, but one pulling down the salary that Will does could easily make a home that anyone would love.

Long walking skirts are said to be dangerous to women; but they are not, because the women won't wear them.

ADVOCATES ADVERTISING  
BY CHURCHES IN PAPERS

(By The Associated Press.)  
CHICAGO, July 16—Every church should have a fund for purchasing space in the newspapers and should advertise in the daily or weekly papers regularly, persistently and consistently. Rev. J. T. Brabner Smith of Chicago, told preachers attending the summer school at Garrett biblical institute today.

## LEAFS TAKE LONG END OF SERIES BY VICTORY OVER BULLS, SCORE 6-5

DURHAM N. C. July 16.—Danville took the closing game of the series here this afternoon 7 to 6, making it stand two out of three for the visitors. It was anybody's ball game all the way through and McWhirter was in hot water most of the way until relieved by Harris in the seventh. The inability of Jones and Kearns who looked very bad, lost the game for the locals. At numerous times with men on bases these two players were unable to come through with the hit that meant victory.

Durham started off by scoring two runs in the first frame when Bourg opened with a single. Kearns attempted to sacrifice him to second and both were safe. Bourg got a big lead and stole third. Earnst's throw to catch him being low and Kearns went to second before Cochlin could handle the ball. Smith shot a single through Cochlin and Bourg scored. Kearns going to third. Mallonee laced out a hit to left and Kearns counted.

The Tobaccoists came back and knotted the count in the second. Myers singled. Earnst walked. McWhirter got hold of one of Hackney's shoots and hit it out of reach of everybody and Johnny came home. At this point rain held up the proceedings for six minutes. When play was resumed Staley who was back in the game, although still suffering from injuries, passed one into left field for a one-timer and McWhirter counted from the keystone station.

Durham showed their teeth again in their half of the second inning when Hackney led off with a clean blow. Bourg following with a twin brother to it. Kearns dropped a Texas leaguer into left and Hackney came home Jones walked filling the bases, and Brummitt lifted a sacrifice fly that let Bourg in for the final tally of the inning.

In the third after McDonald was out Resco hit Myers got a life when Kearns batted up his easy roller and Davy Cochlin sent them both home with a triple into deep center field.

The score remained tied until the seventh when Reagan walked was sacrificed to second by McDonald and went to third on Resco's punch and

McWhirter got the hook in favor of "Cudde" Harris, who promptly walked Mallonee the first man to face him filling the bases. Lennox lifted a sacrifice fly to center and Brummitt came in, but Harris settled down and prevented any further scoring.

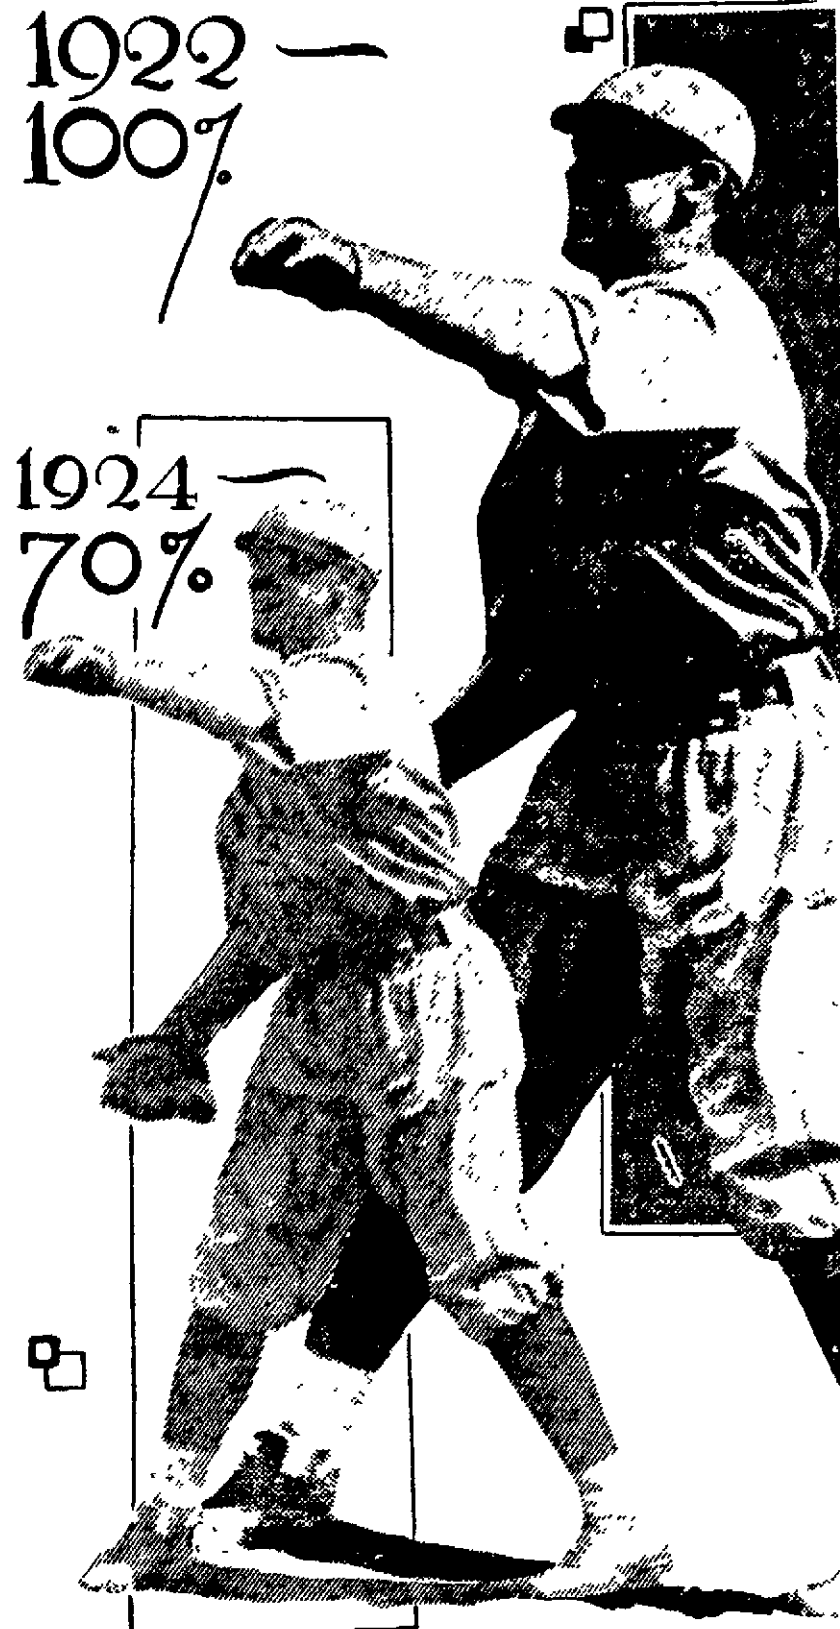

In the sixth inning Hayworth was hit on the head and had a wound opened in his scalp that bled freely by a pitch from McWhirter.

The Detroit Tigers have a ten-day option on Outfielder Mallonee, of the local club. Pitcher Cason has arrived to join the Bulls and was in uniform yesterday.

## SISLER "OFF" 30 PER CENT?

1922 —  
100%

1924 —  
70%

GEORGE SISLER

Showing his importance to the St. Louis Browns in 1922, when he was 100 per cent perfect and as he looms today, with his effectiveness lessened 30 per cent, as a result of his illness of last year.

NEW YORK, July 17.—While George Sisler of the St. Louis Browns after being out almost a year has done a remarkable comeback after being out of the game for a year. American League pitchers say he is far removed from the dangerous batter of old.

A glance over the American League batting averages since the opening of the season bears out the opinion of the pitchers. Sisler, instead of being up among the leaders, with a mark close to .400, has been far down the line most of the time hovering around the .300 mark.

"Sisler is just about 70 per cent efficient," remarked a veteran pitcher recently in discussing the status of the famous player.

"While still a good hitter," he is far

from the dangerous batsman he once was. There is a lack of snap to his swing. His hits are more often Texas leaguers than line drives.

In pitching to Sisler 1 have noticed that he does not follow the ball as closely as when he was leading the league in hitting. As a result he hits late many of his drives going to left field, seemingly lacking in power.

Sisler is still a great ball player and a good hitter, but far below his brilliant form of other years.

It is really remarkable that Sisler, after being out a year has done as well as he has. He has had many obstacles to overcome.

In addition to his eye affliction, he has carried the managerial burden as well as the worries of a business reverse.

## AMERICAN

### INDIANS CUT YANKS' LEAD TO ONE-HALF GAME

(By The Associated Press.)  
NEW YORK, July 16.—The Cleveland Americans won the first contest of a six game series from New York today 4 to 3. The defeat reduced New York's lead in the American league to a half game.

Score:  
Cleveland .. 010 003 000—4 13 2  
New York .. 100 001 001—3 9 1  
Shawkey, Myatt, Hoyt, Jones, Shawkey, Gaston and Schang.

### TIGERS MAKE STEP UPWARD BY BEATING SOX TWICE

BOSTON, July 16.—Detroit advanced to within a game and a half of the league leadership today by defeating Boston twice, 5 to 4 and 11 to 3. Cobb went hitless but his mates battled fiercely. In the seventh inning of the second game, when Detroit made eight runs, Burke doubled off Piercy and tripled off Workman. Blue was put out of the game for disputing the action of Umpire Owens in calling him out for interfering with Piercy's throw to prevent Hellmann from stealing second in the second game.

### LOWLY ATHLETICS SHOW FLEET BY WALLOPING SOX

PHILADELPHIA, July 16.—The Philadelphia Athletics won a double victory from the Chicago White Sox today, 5 to 0 and 6 to 5. Sama Gray's pitching proved too much for the White Sox in the first game, the youthful Tassie holding them to four scattered safeties.

Chicago piled up a five run lead in the second inning of the closing contest on Heimbach but were helpless against the relief hurling of Big Red Hasty. Going into the ninth a run behind the Athletics wallopped out three successive safeties that scored two runs and brought them the victory.

### GREENSBORO FINALLY WINS AND SO DOES JINX HARRIS

HIGH POINT, July 16.—The Patriots won the final game of the series from the locals here this afternoon by cubbing in 6 runs to the Pointers' four and thus saved themselves from a total loss in the three games.

"Jinx" Harris started on the mound for the visitors and got credit for the win although he was taken out in the fourth inning. It was the recruits' first victory in eight starts but in more runs were scored off him than had been in any other two games he has pitched and lost.

G. Thrasher, first up in the ninth inning, slammed out his eighteenth home run of the season off Ruben Crews. The ball took several bounds and finally hopped over the fence.

Outfielder "Red" Irby has been released by Manager Carroll. The player was one of the most brilliant performers in the circuit last year but seemed unable to round into form this season. Death by accident of his child early in the summer has affected his playing.

Carroll was back in uniform today and played a brilliant game but it was announced late this evening that President Bramham declared the Patriot manager was still in line of duty suspended and that the outcome will be problematic. The box score:

Cincinnati 000 004 230—9 14 2  
Osborne, Henry and Taylor, Hargrave, Donahue, May, Sheehan, Rixey and Wingo, Hargrave.

### BOSTON DROPS TWO GAMES TO CARDINALS

ST. LOUIS, Mo., July 16.—Bunching their hits off Jess Barnes in the first game and driving out four hits which scored for runs for a safe lead off their former team mate Lou North in the second, St. Louis won both games of their double header with Boston here today.

Boston's 12 hits off Dyer in the first game were scattered while Stuart in good form, held Boston to six hits and three runs in the fourth inning of the second game. In the opener Tomorrow hit safely four times, getting a triple, a double and two singles. The scores:  
First Game:  
Boston 010 100 011—4 12 0  
St. Louis 300 200 110—7 12 0  
Barnes, Stryker and O'Neil, Dyer and Gonzales.

Second Game:  
Boston 000 300 000—3 6 5  
St. Louis 000 103 030—13 11  
North, Yeagor, Stryker and Gibson, Stuart and Neibergal, Gonzales.

### TWINS SWEEP SERIES BY BEATING CAPITALS AGAIN

WINSTON, July 16.—The Twins made a clean sweep of the series here with Ray, by defeating them 7 to 2 today. Deacon Frank Lankenau, recently signed by the Manager Jackson, was the rifle pit for the locals and was hit freely but tightened in the pinches and succeeded in keeping the visitors from the plate. In the two games, Garrison opposed the former Durham twirler and was hit hard and timely. Hamby, playing right field while Mahoney was behind the plate, led the hitting of the Twins with three out of four, one for three sacks.

Jet Long was out of the line up suffering with a badly swollen ankle injured yesterday in making a sensational catch. Lee, the new comer from Kannapolis, was used in center field and displaced Long in the lead off position in the batting order. The youngster looked well, getting two hits out of four trials and made a difficult catch of Barrett's drive into deep center in the fourth inning.

The locals piled up five runs in the first inning when Garrison got off to a poor start after which the pitcher settled down and pitched good ball. Nine Twin batters faced Garrison in this inning and five singles and a double accounted for the runs. The locals scored again in the third on Hamby's triple and Standards single. In the fifth the last run was chalked up.

Raleigh made their first run in the initial inning on Stringfield's hit, Johnson's sacrifice and Allen's single. The other came in the seventh on hits by Garrison, Stringfield and a sacrifice fly by Barrett.

Allen was hit on the head by a pitched ball in the seventh inning and Elliott ran for him.

The local management has released Outfielder Sigman, of Mooresville.

The box score:

# Yanks Lose to Indians; Tigers and Mackmen Win 2

## LEAD OF YANKEES OVER WASHINGTON IS CUT DOWN TO ONLY HALF GAME NOW

(By The Associated Press.)  
NEW YORK, July 17.—First place in the American League race threatens to slip through the New York Yankees' fingers today in consequence of a conspiracy of Tigers, Indians, and Athletics. The world champions held a precarious lead over Washington by only half a game and over Detroit by a game and a half as a result of their defeat by Cleveland, the double win of Cuyler's followers over Boston and Washington's judicious lay-off.

Through their victory and the Red Sox's two wins, Speaker's club took undisturbed possession of sixth place and is only one game behind the fifth position Browns.

The principal factor in the Yankees' downfall by a 4 to 3 score was Shute, who displayed more stuff than four of Huggins' boxmen. Muehl was the pet goat of the Indians' hurler. Shute passed Ruth three times to get a chance at the left fielder and indicated his strategy in each instance.

While Manager Cobb failed to connect with the apple in his official trips to the plate his employees made up the deficiency and pounded out two victories over Boston by scores of 5 to 4 and 11 to 3. Blue was expected to be called out by Umpire Owens for interference.

Philadelphia advanced two games from the cellar of Ben Johnson's club.

## U. S. SWIMMER FINISHES FIRST IN SEMI-FINALS

Weissmuller and Smith Both Qualify for Finals Tomorrow.

(By The Associated Press.)  
OLYMPIC SWIMMING POOL, LES TOURELLES, France, July 17.—Johnny Weissmuller, of the United States, today finished first in the semi-finals of the 100 metre free style swim. His time was 5 minutes 13.4 seconds. Andrew Charlton, of Australia, was second, and Lester Smith, of the United States, was third.

Robert D. Skelton, Illinois A. C., won the final of the 200 metre swim, breast stroke.

100 metre back stroke. First semi-final, two to qualify for final: first, Warren Swann, England, 11:2.5; second, time, one minute 12.3 seconds.

Both Weissmuller and Smith qualified for the final in this event to be disputed tomorrow. Warren Swann, of Hawaii, and Paul Wyatt, of Uniontown, Pa., were the two competitors in the 100 metre backstroke by finishing one, two, in the first semi-final of this event today.

Miss Elizabeth Becker, Atlantic City, Miss Alleen Kagan, New York, and Miss Carol Fletcher, Cal., the three American girls entered in the fancy diving, low spring board, all qualified for the final.

In the first series Miss Becker won first with six points, Miss Kagan second with 13 points and Miss Fletcher, of Australia, third, with 20 points.

In the second series Miss Fletcher, of Sweden, second with 10 points, was first with 7 points, Miss Johnson, and Miss Oliver, of Sweden, third, with 11 points.

Although Ralph Breyer, Northwestern University, was qualified to compete in the semi-finals of the 100 metre back stroke, he was scratched, the American team deciding to reserve him for the relay.

Johnny Weissmuller had his usual walkover, forcing to the front over the entire field in the 100 metre swim, free style, when the semi-finals were run off. The American took the lead at the start and did not relinquish it. Andrew Charlton, the Australian wonder, was satisfied to qualify and did not exert himself.

Weissmuller, Charlton, Arne Borg, and Al Borg, the Swedish twins, and Lester Smith, U. S., will meet in the final of the 100 metres tomorrow, the Swedish brothers having finished one, two in the second semi-finals. Arne Borg's time in this event was 5 minutes 21.2 seconds.

**BRITISH WINNER OF SINGLE SCULLS RACE**  
(By The Associated Press.)  
ARGENTEUILL, France, July 17.—The single sculls race in the Olympic rowing championship was won today by Jack Beresford, Jr., of Great Britain, defeating W. E. Garrett, of Philadelphia, his American rival.

Four oared, with coxswain: Switzerland, first; France, second; Italy, third; Holland, fifth. Time, 7 minutes 13.2 seconds.

Switzerland won the four oared race with Coxswain in the Olympic rowing championship.

**PROHIBITION DEFEATED IN SASKATCHEWAN**  
(By The Associated Press.)  
REGINA, Sask., July 17.—Prohibition was defeated by people of Saskatchewan today and the Saskatchewan temperance act is on its way to the place of discarded legislation. At the election tonight when the majority against prohibition stood at 17,052 and as it climbed steadily on receipt of further returns from the country, the fact no longer was in doubt.

**WITH EX-PIEDMONTERS IN HIGHER CLASS BALL**  
It may interest followers of baseball hereabout to know that several former Piedmont leaguers who "went up a year or two" are making good in fast company and higher-jazzed baseball. First of all, there is John Quinn, formerly of the Yankees and now with Boston, who with a weak club has won seven of the fifteen decisive games in which he has pitched. This is the 14th year Quinn, who, pitching for Richmond in the Old Virginia League, won the pennant for Richmond and played Danville of it as long ago as 1915. He is one of the few remaining ex-leaguers in the major leagues and is well able to hold a job in the majors.

In the International League (Class AA), Whitman, formerly with Winston-Salem (Piedmont League) in the outfield, is now really second in the average in the league. His organization, "Rabbit" Whitman, as he is known to the fans, in 73 games last year was credited with 119 baseruns for 141 total bases and an average of .370. He is with Newark.

Not far behind him is "Red" Holt, formerly first baseman for High Point in the Piedmont now with Jersey City who in 75 games and 234 times at bat is credited with 97 hits for 166 total bases and a batting average of .330. He ranks third among the sluggers of the league with 28 two baggers, 7 three baggers and nine home runs. Only Whitman and the veteran Fred Marske exceed him in the total bases.

Then there is H. Clark, formerly with Schoolfield in the Bi-State League and later with Winston-Salem, an outfielder now with Baltimore who in 33 games and 112 times at bat has a batting average of .291.

Ormand, of Reading, whose father was in Danville last night and who will be regarded as a Danville boy, is clouting at a .332 clip.

## THE NUT CRACKER

JOE WILLIAMS

**SWIMMING THE CHANNEL**  
Fishes in English channel are lifting ball-bearing voices in protest against intruding athletes of assorted sexes who aspire to damp honor of non-swimming from coast to coast on non-stop principles.

The water fish has no desire to mingle on terms of social or political equality with the land fish. Water fish may have his weaknesses. In certain matters he probably is very simple, if not downright dumb. We can steam up no vast amount of respect for mental qualities of fish that is unable to distinguish a defunct worm impaled on unsuitable hook from real article.

And yet we never heard of a fish that paid fifty smackers to see a couple of barroom graduates demonstrate the finer nonsensicalities of what is laughingly called manly art of self-defense.

Whoever named most descendants of the original fish family knew plenty about dry land voters.

The human jelly fish, for example, you see him every day. In his snappy tweed knickers, with hair all greased up like the Athletics' slump stepping out with the Simple Susies, and wearing an expression that is about as animated as a five-cent sack of salt.

The bullhead fish is another reason why revolvers are sold to discriminate. You find him in the gutter-enders; you see him in the bleachers arguing that the Cubs are better than any team that ever threw a series; you hear him in the theater lobby chirping that the drama died when Booth was caught off second.

The bullhead fish stands high in his own esteem and his opinions on heavy matters are highly valued by himself.

All the cowfishes aren't flapping about in murky seas, either. We have yet to watch the Zyzko boys wrestle without feeling that nature held out on the whole family. A little touching up, with a fin here and a fin there, and a tail where tails usually go, and the Zyzko boys—or any other fat wrestler for that matter—would easily make the grade.

And somehow or other old Jess Willard always reminded us of a catfish. Maybe it was because catfish are por fighters. And when they do put up a fight it's terrible to watch.

**The Sportsman**  
By WALTER CAMP

(Copyright, 1924, by The Bee)  
NEW YORK, July 17.—Ireland on August 18, is going to play the part of runner up to France. She will receive the old carnival of athletic sports known as the Tail Teann games.

When the French baron, De Courberin, proposed the resurrection of the ancient Olympic games, he had not half the background that Ireland has as sanction for the coming games.

For the good baron was reviving an event that belonged exclusively to Greece—albeit Romans did at one time send their athletes to participate in the proceedings at Athens. At any rate Ireland is the home of the Tail Teann games and thus she will have every incentive of patriotism to make them memorable.

And these Tail Teann games, no less than the classic Olympics, had their heroes who have lived in song and story. One of these Selanta, known as the hound of Cuchulain, is revered as one of the heroes of these games. And in many an Irish castle where athletes are held as a source of pride would be heard the mention of many another name.

Since it is likely that not a few Olympic contestants will make the trip to Ireland for this meet, the success seems almost foregone.

Jake Driscoll, the old American quarter-mile star, has gone over to compete in the Tail Teann and thus show the world that his failure to make the Olympic team was due to no shortcomings on his own account, but rather to the carelessness of those who selected the American band of invaders.

The chances are that these Irish games will attract wide attention and become one of the recognized athletic events of the world.

**Goldstein Retains Title After Tame Fight With Ledoux**  
(By The Associated Press.)  
NEW YORK, July 17.—In a colorless, totally uninteresting exhibition, in which caution was the chief stock in trade of the two principals, Abe Goldstein, world's bantamweight champion, successfully defended his crown against the torrid rusher, Charlie Ledoux, of France, former European bantamweight champion, in a 15 round match at the Velodrome A. C. last night.

Goldstein scored two knockdowns during the match but failed to take advantage of an apparent opening. Ledoux brought him a knockdown and as a result brought plenty of censure from 5,000 irate fans who paid admissions to see Goldstein defend his crown.

Ledoux failed to display any point punch and as a result Goldstein came out of the battle virtually unmarked, while Ledoux bled freely from a badly smashed face.

## THIS HOME FREE FROM FRILLS

There is not an expensive frill on this homey, little bungalow, which can meet the average woman's pocketbook. With a charming exterior, it also has all the comforts of a larger home. Although on a foundation 28 by 40 feet, it contains five comfortable rooms and a sleeping porch that can be converted into a third bedroom. The kitchen has a good-sized pantry.

**For the Game's Sake**  
By LAWRENCE PERRY

(Copyright, 1924, by The Bee)  
NEW YORK, July 17.—Believing that the University of Minnesota track and field athletes have been handicapped by lack of opportunity for practice upon dirt in the closed season which is long in Minnesota, the athletic authorities have developed an interesting plan.

Underneath the stadium now being constructed adjacent to Northrop Field, work has already begun upon a running track which will be a quarter of a mile long and contain two straightways of more than a hundred yards each.

Here, upon this enclosed track, the Gopher track and field athletes will have abundant opportunity for practice upon dirt in the closed season which is long in Minnesota, the athletic authorities have developed an interesting plan.

Besides the running track, and in addition to the usual showers, dressing and equipment rooms and the Wilson dirt surface beneath the stadium will eventually contain sliding pits for baseball tackling, tumbling and space for tennis, handball and the like.

Fred J. Leubring, director of athletics at Minnesota, advises the writers that the contractors working on the stadium are two weeks ahead of schedule. Fully half of the concrete has been poured and a large number of seats are in place.

"The stadium," writes Leubring, "will first of all stand as a fitting memorial to Minnesota's sons who gave their lives in the world war. It is hard to conceive of a more fitting memorial than a stadium with its function to the mass and with its function of providing for a wholesome expression of physical fitness, good sportsmanship and college spirit. Money to extend our intramural system will also be provided and this is significant in moral and social as well as physical values."

Leubring points out that the endiron will be surrounded by a 440-yard, one-turn track, thirty feet wide and with a 22-yard straight way. This will put Minnesota in line for any of the great national track and field meets.

The seating capacity will be fifty-two thousand, which is regarded as adequate for all future needs for some time to come.

"Finally," says Leubring, "the stadium, where the most valuable lessons of physical fitness, co-operation, sacrifice, team work and good sportsmanship with respect to players, opponents and officials will have been taught simultaneously to thousands of students, is a new and lofty way in which to look upon stadiums."

**Good Progress On Watson Street**

The paving on Watson street is moving along in splendid shape, and unless the workmen are hindered, the high end of the concrete will have been poured by tomorrow night. This has been one of the worst streets in Danville, and those who have to use it will be much gratified when the work is completed. It is understood that Watson street will also be paved in the near future. This with the completion of the program of hard-surfacing all of the principal streets in the city.

**STEPHENS ON TRIAL FOR TRAIN ROBBERY**  
(By The Associated Press.)  
PETERSBURG, Va., July 17.—Joseph H. Stephens, of Richmond, accused of participation in the \$37,000 robbery of the express car on the Norfolk and Western "Cannon Ball" express early last December, will go on trial today at Prince George county house. Sixty residents of the county have been summoned and a jury is expected to be secured in short order.

**I. E. SPATIG DEAD**  
(By The Associated Press.)  
PETERSBURG, Va., July 17.—I. E. Spatig, former member of the Virginia House of Delegates from Brunswick county, died at Lawrenceville last night, according to a telegram received here today. Funeral services will be held Friday afternoon at 5 o'clock and the burial will be in Lawrenceville cemetery.

In a small town the stray dogs get you and in a large town the stray bullets get you.

## Grandstand Gaff

IT'S SURE funny how subject of fan gossip right now. Myers has shown a world of improvement since he joined the Tobaccoists. He played a great game at short yesterday and slammed out three safeties in four attempts.

No Second Sucker Needed.  
Staley was back in the game yesterday and got a single. Unusual as it may seem, the keystone didn't have a single fielding chance, not even an opportunity to cut off a stealing runner. Not a ball came his way during the entire nine innings.

Cochlin put up a nice game at third and got a couple of safe blows, one a triple that brought in two runs. Dave is proving a classy third sacker and has shown great improvement with the whip.

Red Irby a Free Agent.  
Red Irby, outfielder, who played the entire season with High Point last year without making an error, but this year with Greensboro has been released by Carroll. He is, however, has received several offers from other Piedmont clubs. He probably will join Winston-Salem. He has experienced a lot of trouble this season. His child was killed in an auto accident and he himself has been injured a couple of times. These setbacks have played greatly but his worth is realized and he will not see many idly days before being picked up.

"Jinx" At Last Broken.  
"Jinx" Harris, who has lost the last seven starts, six by one run margins, has at last broken the jinx, that has been following him, by defeating the Pointers yesterday. He did not last the whole game but gets credit for winning it.

Walt Johnson is 37.  
The speedball king of pitchers, Walter Johnson, is 37 years of age. Fans are pulling for Washington to win this year so Johnson can pitch a world series game.

Macks Weak at Bat.  
The Athletics are the weakest hitting team in the majors. That's why they are last. Strand and Bishop have failed to live up to expectations at short and his batting spree is the at the bat.

Myers' Sensational Spurt.  
The sensational field work of Myers at short and his batting spree is the at the bat.

Harris to the Rescue.  
Cudde Harris again demonstrated his effectiveness by saving and winning the game after he relieved, McWhorter in the seventh. He didn't allow a hit in the three innings he worked. Cudde has now about recuperated and is determined to show his "stuff" as of old. He can do it, too. Just wait him.

**YESTERDAY'S RESULTS IN LOCAL GOLF TOURNAMENT**

The annual club tournament of the Danville Golf Club began Tuesday on the links at Shawboro, continued yesterday and will be in progress again today. It has awakened the interest of the clubmen and is eliciting a spirited competition for the honor of champion, which has been won by Dr. L. O. Crumpler once.

Yesterday's results follow:

J. G. Bontarachi won from A. G. Pritchett, 7 and 6.

T. Jeff Bass won from S. C. Cunningham 1 up in 19 holes.

H. C. Leach won from J. C. Jordan, Jr. 1 up.

Dr. L. O. Crumpler won from O. L. Roach 4 and 3.

Barnett Lea won from A. F. Patton 1 up in 20 holes.

The Carolina Motor Club suggests the following routes to Blowing Rock:

From Raleigh	From Greensboro	From Greenville and Spartanburg
Via Pittsboro	Via Salisbury	Via Gaffney
Siler City	Statesville	Gastonia
Asheboro	Taylorsville	Lenoir
Lexington	Lenoir	Lenoir
Salisbury	From Charlotte	Lenoir
Statesville	Via Statesville	Lenoir
Taylorsville	Taylorsville	Lenoir
Lenoir	Lenoir	Lenoir

The above information is endorsed by Mayview Manor at Blowing Rock. W. L. Alexander, prop., says: "Folks intending to visit Blowing Rock need not delay the trip a single day on account of rains. The approaches are in first-class condition and the time to come up here is while it is hot below. Our elevation of 4,500 feet gives us constant cool weather."

Come up and enjoy golf, fishing, swimming or just plain resting. You will be welcomed at Mayview Manor and will enjoy the novelty of blankets and log-fires these July evenings."

## PIGGY WIGGLY FILES

### INFRINGEMENT CLAIMS

(By The Associated Press.) JACKSON, Miss., July 16.—Alleging infringement of patents, suit was filed today in federal district court here by the Piggy-Wiggly Corporation of Tennessee against the Jitney Jungle Corporation of Mississippi.

Both of the parties to the action operate chains of self-serving retail grocery stores and both have stores in this city and various other parts of Mississippi.

The Jitney Jungle Corporation is a local concern founded in 1921 and the organizers own all the stock.

The Piggy-Wiggly Corporation asks damages to the extent that "Jitney Jungle" pay over all income or profits it has "unlawfully derived from the infringement" and seeks an injunction to restrain the defendant from using similar systems.

## WOMAN ADMITS GIVING POISON TO HUSBAND

### (By The Associated Press.)

MOUNT GILEAD, CHICAGO, July 16.—County Prosecutor T. B. Mateer has not decided what action he will take regarding the confession yesterday of Mrs. Elmore Yeoman that she administered poison to her husband, Lewis Yeoman, of Cardington. The sixth of the woman's husbands, Yeoman, died June 25 after a slow illness.

Prosecutor Mateer said he would follow either one of two courses. He may request Coroner Todd Carls to return a verdict that Yeoman met his death by poison administered by his wife and request that the bond be set at a high figure, or he may ask the court to call a session of the grand jury and ask for a first degree murder indictment. The woman confessed to poisoning Yeoman after being held in county jail here for several hours.

She was arrested at Marion Sunday after an examination of the vital organs by state chemists showed traces of poison.

## Statistics on Va. Income Tax 1922

By GEORGE H. MANNING.

WASHINGTON, D. C., July 16.—For the calendar year, 1922, citizens of Virginia paid \$4,919,485 federal income taxes, as compared with \$4,161,116 for 1921, an increase of \$758,369, or 18.23 per cent.

At the same time, the number of persons reporting income dropped from 76,257 to 71,523 and the total of net income reported dropped from \$205,331,701 to \$207,277,342, a loss of one-half of one per cent.

The average net income per return was \$2,598 and the average amount of the tax was \$58.75. For the preceding year, the average net income per return was \$2,732 and the average amount of the tax was \$55.

Out of the 71,523 persons reporting income, only 1,716 admitted net income over \$10,000, though 4,091 reported net between \$3,000 and \$10,000, the remaining vast army of 65,716 reporting income under \$3,000.

Practically all of the Virginia counties showed fewer returns for 1922 than for 1921, and all of the cities except Richmond, Norfolk, and Roanoke. In the case of Roanoke, the increase in number of returns more than doubled, and made the Magic City the banner city in this evidence of prosperity.

Returns made by the cities for 1922 were as follows: Alexandria, 1,293, against 2,630 for 1921; Bristol, 414, against 529 for 1921; Charlottesville, 621, against 920, Clifton Forge, 414, against 720; Covington, 345, against 355; Danville, 1,587, against 1,920; Fredericksburg, 311, against 360; Hampton, 311, against 360; Harrisonburg, 311, against 360; Lynchburg, 3,484, against 2,850; Newport News, 2,156, against 2,705; Norfolk, 13,362, against 12,320; Petersburg, 1,449, against 1,920; Portsmouth, 3,476, against 3,840; Pulaski, 173, against 210; Richmond, 16,842, against 16,000; Roanoke, 8,119, against 2,550; Stanton, 552, against 640; Suffolk, 449, against 555; Winchester, 351, against 355.

The following table shows the number of returns and income classes in the Fifth District counties for 1922: County returns Under \$5,000 \$5,000 to 10,000 10,000 and over

## HORSELEY SUCCEEDS COX

(By The Associated Press.)

RICHMOND, Va., July 16.—J. R. Horseley, of Stapleton was appointed by Governor E. Lee Trinkle today to the state geological commission to succeed Edwin P. Cox, of Richmond, who resigned to become judge of the fourth judicial circuit, vice the late Robert G. Southall. Mr. Horseley, member of the House of Delegates from Appamattox and Buckingham, will serve until June 1, 1925.

## Talking Honey

By G. L. FERGUSON

(No. 9)

When that pal of beautiful clear honey that you heard a few weeks ago begins to get cloudy and thick until it is the color and consistency of lard don't jump to the conclusion that you've been swindled or that the honey is adulterated or spoiled. Nothing of the kind. Your honey has begun to granulate.

The change sometimes called "candying" or going to such is only one of nature's processes and in no way hurts the flavor or the quality of the honey. Any pure honey will granulate but the honey from some flowers will granulate much quicker than that from others. Honey that is kept in a warm place will stay liquid much longer than if left in a cold cellar or shed.

Granulated honey can be brought back to its original liquid form without harm to color or flavor if proper precautions are taken in the operation. Put the can or jar of honey in a larger pan of water heated with warm water well up to the top of your honey can. Be sure to place a couple of sticks under the honey can so that the water on the outside all around the can will be at the back of the stove where the water will get no hotter than you just bear your hand in—about 140 degrees. Let it stay till the honey gets thoroughly melted all through and nearly as clear as when it was taken from one to four hours depending on the size of your honey can. If it doesn't stay clear enough it will soon granulate again. But under no circumstances must it be heated in the boiling water. Too much heat will make it turn dark and taste like poor molasses.

Many people prefer to eat honey in its granulated form and this is one of the finest ways to use it.

**NEW ORLEANS COTTON.**

(By The Associated Press)

NEW ORLEANS, July 17.—The cotton market opened higher owing to much better cables than due this morning showing gains of 5 to 25 points on new crop months. Prices advanced further right after the opening, all on good buying. October futures up 25 to 24 and December to 24 1/2 to 25 points above the previous close. The stimulating influence was reports of further rains in the Mississippi and continued high temperatures generally. The market closed about 8 to 10 points higher on 15,000 bales, induced by two private cotton reports both making the average 7 1/4 and the indicated crop 2,100,000 bales.

## WARN CAMPERS BY RADIO OF FOREST FIRES

Every Party Within 50 Mile Radius of Flames Told to Leave Forests at Once

BY L. C. OWEN  
(Copyright, 1934, by The Bee)

SAN FRANCISCO, July 17.—The invisible forces of the far reaching radio together with the aid of more than a million amateur fans today were being drafted into the fight against the epidemic of forest and brush fires which are rapidly becoming a grave menace to several sections of California.

Warnings to thousands of summer campers in the endangered mountain regions together with a state-wide educational campaign to safeguard against further new fires are parts being played by etherial wave lengths in California's battle against the fire god. For what is probably the first time in the history of radio, cheap little portable crystal sets of many amateurs are engaged in the whole-side work of rescue.

Under the directions of the United States forest service, a dozen big broadcasting stations in the San Francisco bay region are sending out word to all campers within fifty miles of seven fires now raging and warning them to quit the mountains immediately. Many of these campers are known to carry small portable crystal sets and to run in readiness on the afternoon and evening concerts given by stations here.

Amateur operators in the endangered mountain regions are counted upon to receive and spread the alarm among other campers and as the result a general exodus from mountains is expected to be underway within a dozen hours.

The educational campaign participated in by more than a million amateur radioists already, dubbed by forest officials as "California's forest program tonight." Opposed to the varied ranks of radio enthusiasts in the campaign will be the "Careless Smokers Brigade" and the "Negligent Campers Army." More than ninety per cent of the 500 bush fires which have been recorded in California so far this year have been caused either by carelessly tossed cigarette butts or by smouldering camp fires left behind by departing campers.

Over the radio tonight and for every night for a week, forest service heads will tell every listening fan that because of long continued dry weather, every government forest preserve in the state is like the proverbial box under only a spark is needed to set it aflame. The seriousness of the situation will be impressed upon all who listen in and the cooperation of all citizens in the fire prevention will be sought.

Altogether, it is estimated that 30,000,000 of the great majority of them conscripted from passing automobiles, mountain hotels and camping parties are on the forest fire lines today. Leading them are 115 government forest rangers many of whom have been directing the battle against the flames for more than a week without rest or sleep.

Three of the seven big fires now raging already have burned over more than 200,000 acres of heavily forested areas and unless they can be checked or checked may spread to districts where it will be almost a physical impossibility to stop them.

The most dangerous fire is believed to be located along the new branch of the American River Canyon in the Lake Tahoe National Forest reserve. This capricious fire, one hour behind to be checked and the next taking out of control, already has swept an area twelve miles long and six miles wide toward the divide which separates it from the famous Lake Tahoe summer resort section. It is feared that if it ever gets over the divide the whole Lake Tahoe region will be swept.

**MORNING COTTON LETTER.**

(Thomson & McKinnon.)

NEW YORK, July 17.—Cables about as due. It was cloudy east and rain west last night at the cotton weather stations. Forecast: Carolina, Georgia, Alabama, Mississippi and Tennessee showers. Arkansas, Texas and Oklahoma generally fair except showers in eastern Oklahoma and northern Arkansas.

Five cotton mills, resumed operations in Lowell, Mass. Pretty good business in North Street yesterday. General sentiment in textile circles is becoming more hopeful. Telegrams in Journal of Commerce, top column, average unfavorable. Little trouble in Texas section and perfect trouble in Texas if it is a bit.

Buying yesterday is supposed to have been by local operators who did not see the crop growing season being their operations on Texas condition. Higher prices are probable, but the death of the big size is relieved.

**MORNING STOCK LETTER.**

(Thomson & McKinnon.)

NEW YORK, July 17.—This being the cotton day, everyone should call a convention inviting all the silver minded hunters for the purpose of solemnly protesting against the advance in the price of cotton. They would proclaim in the most eloquent terms that the rise is unconscionable. Prices are advancing without a McGraw-Hill 15. It must be some more of the disastrous work of Wall Street and its ally LaSalle Street to fool the farmer.

## PARROT TALKED TOO MUCH

Polly family parrot in the Simon Silverberg household at Baltimore, Md. became an important witness in Mrs. Silverberg's suit for separation from her husband. Mrs. Silverberg (shown above) had been away on a visit and upon her return found the parrot "choking" the name of "Cora"—at least such is the allegation. Now Mrs. Silverberg's name happens to be Rose and she became suspicious. She won her court action.

**NEW YORK STOCKS.**

(By The Associated Press)

NEW YORK, July 17.—Considerable irregularity marked today's initial dealings in stocks. Stewart Warner declined abruptly more than six points to the year's lowest price and later rallied and Bethlehem Steel also touched a new 1934 low on uneasiness over coming dividend action. Local traction and several railroad issues touched the year's top prices.

Selling later became more general among industrial chemical steel and motor accessories shares receding sharply. Strength of the public utility and low priced rail issues, however, was well sustained. Stewart Warner after falling to 48 1/2 rallied to 52 3/4 on hurried short covering. Strongly, Republic Steel, U. S. Cast Iron Pipe and Division Chemical were hammered down 1 to 2 points while gains of 1 to 1 1/2 points were registered by Wheeling and Lake Erie preferred, Georgia and Eastern Railway, preferred Third Avenue Railway, Woodworth and Brooklyn Manhattan Transit Foreign exchanges opened steady.

**CO-OP NOTICE**

There will be a meeting of the Tobacco Growers Association at the York Schoolhouse Friday night, July 19, 8 o'clock. We will have W. E. Gardner with us and several more. All locals are invited and all Co-Op and non-Co-Op can and have a good time.

J. H. FARMING President
